## Block 1

| W1 | 6.1.1 Read and understand numbers up to $\mathbf{1 0 , 0 0 0 , 0 0 0}$ | 6.1.3 Understand the value of each digit in numbers up to 10,000,000, including decimals to 3 decimal places | 6.1.2 Compare and order numbers up to 10,000,000 | 6.1.6 Multiply and divide whole numbers and decimals by 10, 100 and 1000, using understanding of place value | 6.1.8 Round numbers to the nearest tenth, 1 , 10, 100, 1000, 10,000, 100,000 and 1,000,000 (revision) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| W2 | 6.1.11 Identify missing negative numbers on number lines with intervals of 1, 2, 5 and 10 (revision) | 6.1.13 Calculate with negative numbers using a number line(revision) | Consolidate 6.1 <br> Link to reasoning and problem-solving activities | 6.2.1 Use partitioning, compensation and known facts relating to multiples of 10,100 , 1000 , etc to add and subtract mentally (revision) | 6.2.2 \& 6.2.3 Use known multiplication facts to carry out mental multiplication beyond $12 \times 12$, including multiplying multiples of 10 and 100 and using the distributive rule (e.g. $18 \times 6 \rightarrow(10 \times 6)+(8 \times 6)$ |
| W3 | 6.2.5 Multiply whole numbers up to thousands with 2-digit numbers using a formal written method (revision) | 6.2.9 Solve <br> multiplication word problems, choosing a mental or written method (revision) | 6.2.11 Divide using formal written method of short division, applying this to 1-digit divisors and 'friendly' 2-digit divisors (e.g. 12, 15, 25, etc) | 6.2.20 Divide using formal written method of short division, representing remainders as fractions | 6.2.21 Divide using formal written method of short division with decimal quotients |
| W4 | 6.2.15 Mentally find 1st, 2nd, 5th and 10th, 20th, 50th, 100th multiple of 2-digit numbers as a precursor to more challenging division $\begin{aligned} \text { e.g. } 2 \times 24 & =48 \\ 5 \times 24 & =120 \\ 10 \times 24 & =240 \\ 20 \times 24 & =480 \\ 50 \times 24 & =1200 \\ 100 \times 24 & =2400 \end{aligned}$ | 6.2.15 Use repeated subtraction of multiples to divide numbers up to 3 digits by 2 digits | 6.2.15 Use repeated subtraction of multiples to divide numbers up to 4 digits by 2 digits | 6.2.19 Solve division word problems that require interpretation of the a remainder in the answer (round up, round down or create decimals) | Consolidation of 6.2 <br> Link to reasoning and problem-solving activities |
| W5 | 6.3.1 Recognise and find factors and multiples of a number; identify which numbers below 100 are prime and know prime numbers up to 20 (revision) | 6.3.2 Find the highest common factor of 2 or 3 numbers and the lowest common multiple of 2 or 3 numbers (revision) | 6.3.4 Find equivalent fractions (revision) | 6.3.7 Simplify fractions (revision) | 6.3.7 Compare and order fractions (including mixed numbers) and decimals (revision) |
| W6 | 6.3.11 Add and subtract proper and improper fractions (revision) | 6.3.12 Add and <br> subtract combinations of mixed numbers, proper fractions and improper fractions | 6.3.12 Multiply fractions by whole numbers and other fractions; divide fractions by whole numbers (revision) | Consolidation of 6.3 <br> Link to reasoning and problem-solving activities | 6.4.1 \& 6.4.2 Find shapes with a different area when perimeter is kept constant and vice versa |

## Block 2

| W1 | 6.4.4 Understand and use given formulae for the area of rectangles and the volume of cuboids | 6.4.10 Find the volume of cuboids, and understand the link between capacity and volume | 6.4.7 Find the area of triangles by knowing that every triangle can be visualised as half a rectangle | 6.4.5 Find the area of parallelograms by knowing that every parallelogram can be visualised as two parts that form a rectangle | 6.4.8 Solve problems using the areas of squares, rectangles, triangles and parallelograms |
| :---: | :---: | :---: | :---: | :---: | :---: |
| W2 | 6.4.12 Solve problems related to perimeter, area and volume | Consolidation of 6.4 <br> Link to reasoning and problem-solving activities | 6.5.1 Use the mnemonic 'BODMAS' to calculate in the correct order when brackets and/or multiple operations are present in a calculation | 6.5.2 Use 'BODMAS' to solve number problems where the operations and/or brackets are absent and need to be added to make an equation correct | 6.5.6 Decide which operation to solve given one-step word problems for all four operations, using a bar model to represent these where appropriate (revision) |
| W3 | 6.5.7 Solve multi-step addition and subtraction word problems including those involving measures and money (revision) | 6.5.10 Solve multi-step multiplication and division problems, including those involving money and measures (revision) | 6.5.10 Solve multi-step problems using all four operations including those involving measures and money (revision) | 6.5.14 Use known multiplication facts to multiply multiples of 0.1 and 0.01 by single digit numbers (e.g. $0.6 \times 4=2.4$ ) | 6.5.15 Use known multiplication facts to divide multiples of 0.1 and 0.01 by single digit numbers (e.g. $3.6 \div 4=0.9$ ) |
| W4 | 6.5.18 Complete formal addition and subtraction written calculations where numbers have been hidden | 6.5.18 Complete formal short multiplication and short division written calculations where numbers have been hidden | Consolidation of 6.5 <br> Link to reasoning and problem-solving activities | 6.6.1 Recognise and plot coordinates in one quadrant (revision) | 6.6.2 \& 6.6.3 Recognise and plot coordinates in four quadrants |
| W5 | 6.6.2 \& 6.6.3 Recognise and plot coordinates in four quadrants | 6.6.6 Reflect shapes on a coordinate grid with 4 quadrants, finding the new coordinates of the shape | 6.6.6 Translate shapes on a coordinate grid with 4 quadrants, finding the new coordinates of the shape | Consolidation of 6.6 <br> Link to reasoning and problem-solving activities | 6.7.1 Find the equivalent fractions, decimals or percentages when given one of them (revision) |
| W6 | 6.7.3 Compare and order fractions, decimals and percentages by finding equivalence (revision) | 6.7.5 Find the decimal and percentage equivalence for fractions with 8 as the denominator | 6.7.6 Compare and order decimals up to 3 decimal places (revision) | 6.7.7 Calculate using decimals in the context of money and measures | 6.7.8 Multiply fractions by whole numbers and by other fractions, and show how to visualise these in a pictorial form (revision) |

## Block 3

| W1 | 6.7.11 Divide fractions by whole numbers, visualising this with a pictorial representation | 6.7.12 Divide and multiply fractions by whole numbers | Consolidation of 6.7 <br> Link to reasoning and problem-solving activities | 6.8.1 Find pairs of numbers that fulfil multiple constraints (e.g. a pair of numbers with a sum of 10 and a product of 21) | 6.8.2 Systematically find all the possible combinations of two independent events (e.g. How many outcomes are there when you flip a coin and roll a die, and what are they?) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| W2 | 6.8.3 From a set of given numbers, find numbers that complete an equation | 6.8.5 From a set of given numbers, find pairs numbers that complete an equation | 6.8.6 Substitute given values into simple algebraic expressions (e.g. $a=4 ; b=10$ <br> Find the value of $5 \mathrm{a}-\mathrm{b}$ ) | 6.8.8 Express simple situations using algebraic notation | 6.9.1 Convert between units of measurement for length, mass, capacity and time (revision) |
| W3 | 6.9.3 Solve measures word problems that require conversion between units of measurement for length, mass, capacity and time (revision) | Consolidation of 6.8 \& 6.9 <br> Link to reasoning and problem-solving activities | 6.10.4 Give estimates to calculations through appropriate choices for rounding (revision) | 6.10.7 Find different percentages of numbers by using common percentages as landmarks (e.g. 21\% of $700 \rightarrow$ $10 \%$ of $700=70$ $1 \%$ of $700=7$ $70+70+7=147$ ) | 6.10.11 Find the value of multiple items from the value of one item and vice versa, scaling where possible as a shortcut; use this to solve rate problems e.g. 8 pencils cost $£ 3.20$ How much would 1 pencil cost? 7 pencils? (revision) |
| W4 | 6.10.11 Use a given rate to find various amounts, and use this to solve problems e.g 250 g of butter costs £3. So... <br> 50 g costs 60 p <br> 100 g costs $£ 1.20$ <br> 1 kg costs $£ 12.00$ <br> etc <br> (revision) | 6.10.14 Visualise ratios using bar models, and use these to share out amounts correctly | 6.10.14 Use bar model representations to find missing amounts when the total or one share is given (e.g. Paint is made in a ratio of 3 parts blue paint to 2 parts red paint If there is 15 litres of blue paint, how much paint will there be in total?) | 6.10.14 Use proportional reasoning to scale recipes or lists of required components up or down in order to solve problems | 6.10.14 Use proportional reasoning to scale recipes or lists of required components up or down in order to solve problems |
| W5 | Consolidation of 6.10 <br> Link to reasoning and problem-solving activities | 6.11.3 Interpret simple pie charts with recognisable fractions, and compare information between two pie charts with different totals (revision) | 6.11.4 \& 6.11.5 Interpret line charts and bar graphs, including finding totals and differences (revision) | 6.11.6 Understand that the mean is a type of average that represents a set of data in one number; know that the mean of two numbers is the midpoint between them | 6.11.7 \& 6.11.8 Calculate means from a set of data \& recognise that a single outlier can change a mean greatly |
| W6 | 6.11.9 Create data sets that would give a particular mean when given particular constraints (e.g. Four numbers have a mean of 10 . None of the numbers are even. What could the four numbers be?) | 6.12.3 \& 6.12.4 Describe the pattern in linear sequences using a rule and find terms later and earlier in a sequence | Consolidation of 6.11 \& 6.12 <br> Link to reasoning and problem-solving activities | 6.13.1 Draw and measure acute and obtuse angles (revision) | 6.13.1 Draw and measure reflex angles |

## Block 4

| W1 | 6.13.5, 6.13 .6 \& 6.13 .7 Understand and use scale factors (e.g. An equilateral triangle with sides of 4 cm will have sides of 12 cm if enlarged by a scale factor of 3 ) | $6.13 .5, \underline{6.13 .6} \& 6.13 .7$ <br> Understand and use scale factors (e.g. An equilateral triangle with sides of 4 cm will have sides of 12 cm if enlarged by a scale factor of 3 ) | 6.14.1 Know that the angles around a point total $360^{\circ}$, and use this to find missing angles when one or more are given | 6.14.2 Know that angles around a point on a straight line total $180^{\circ}$, and use this to find missing angles when one or more are given | 6.14.3 Know that opposite angles are equal; use this and knowledge about right angles, angles around a point on a straight line and angles around a point to solve angle problems |
| :---: | :---: | :---: | :---: | :---: | :---: |
| W2 | 6.14.4 Use knowledge of angles to find missing angles in various situations | 6.14.8 Understand that the radius is the length from the centre of a circle to its edge, that the diameter is twice the radius and that circumference is the perimeter of a circle | Consolidation of 6.13 \& 6.14 <br> Link to reasoning and problem-solving activities | Consolidation of 6.13 \& 6.14 <br> Link to reasoning and problem-solving activities | 6.1.3 Divide powers of 10 into $2,4,5$ or 10 equal parts and read scales and number lines with intervals labelled divided into $2,4,5$ or 10 equal parts of powers of 10 |
| W3 | 6.1.3 Divide powers of 10 into $2,4,5$ or 10 equal parts and read scales and number lines with intervals labelled divided into 2, 4, 5 or 10 equal parts of powers of 10 | Use a given additive relationship to derive related equations (e.g. given 944+477= 1421, solve this: $142.1-94.4=$ $\qquad$ | Use a given multiplicative relationship to derive related equations (e.g. given $346 \times 7=$ 2422, solve this: $24220 \div 7=$ $\qquad$ | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W4 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W5 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W6 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |

| Block 5 |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| W1 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W2 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W3 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W4 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W5 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |
| W6 | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers | Revision for SATS based on formative assessment / practice papers |

## Block 6

| W1 | Maths and my world - money, utilities, mileage, maps, etc |
| :--- | :--- |
| W2 | Maths and my world - money, utilities, mileage, maps, etc |
| W3 | Maths and my world - money, utilities, mileage, maps, etc |
| W4 | Thinking mathematically and solving problems - conjecturing, specialising, generalising, reflecting and communicating |
| W5 | Thinking mathematically and solving problems - conjecturing, specialising, generalising, reflecting and communicating |
| W6 | Thinking mathematically and solving problems - conjecturing, specialising, generalising, reflecting and communicating |
